

# Heli Fly-in:

**Saturday - July 3<sup>rd</sup>**

Although a reasonable number of flyers turned up to compete, it is likely that many were discouraged from travelling due to poor flying weather on the day.

A strong, gusting wind made the competitions difficult for most pilots, the 'bottle knock' event proving particularly challenging.

Nevertheless, a good days competition was had with plaques being presented to the winners of each event.

Many thanks to John Fitzgerald for organising the event.

As always, William (*Snr*) was on hand doing an excellent job of organising refreshments for the competitors.
