## NEXT MEETING:

**Monday 30<sup>th</sup> May at 8pm**  
**Shannon Golf Club**

*A meeting regarding the 'Schluter Cup' event will take place at 7.30pm*

## CRASH DEBRIS

William requests that all crash debris be removed from the field (particularly broken propellers) as these are damaging the mower blades.

## Portlaoise Scale Fly-in:

A group of scale flyers from the club visited the Portlaoise club for their recent scale fly-in. A very enjoyable days flying was had by the visitors notwithstanding the copious amounts of 'hot-air' in evidence on the day.

Many thanks to all who attended on behalf of the club.

## Tipperary Club:

The Tipperary club have kindly extended an open invitation to fly at their site.

A firm date has yet to be established but a days flying is likely to take place early in June.

A return date is to be organised for flying at Shannon later in the summer.

## Evening Flying:

The traditional summer club flying night is to be re-established.

It is intended that a club night will take place every Thursday evening starting around 5pm.

This will run across the summer while there's reasonable length in the evenings.

## A Cert Training / Examination:

Training and examinations for the **A-cert**. will take place on the first Sunday of each month until further notice.

One hour between 1pm and 2pm will be dedicated to **A-cert** flying.
