

Control Line Fly-in:

Saturday - April 16th

A good turn out of control line flyers were on hand (some travelling from as far away as Belfast).

The weather on the day was excellent, sunny with a slight breeze - apparently Dermot offered up a Novena (*or said a black mass - not sure which*).

Flying continued all day with a wide range of models on show. Many thanks to Dermot (ably assisted by Phillip Jones) for organising the event.

Heli Fly-in:

Saturday - April 23rd

Again a good turn out with some 18 flyers on the day.

Weather was good with ample flying opportunities. Some excellent display flying was to be seen from club members and visitors alike.

Many thanks to John Fitzgerald (ably assisted by Liam) for organising the event.

Refreshments for the control line and heli fly-in were organised on the days by William Wallace.

As usual the field was in tiptop shape and the general condition of the site was commented on by a number of the visiting flyers. Thanks to William for his dependability.
